PROFESSIONAL EXPERIENCE

2018 - present

Full-Stack Developer (Freelance)

I work closely with clients from various sectors while keeping with my commitment to the development best practices. I accompany my clients from the design phase to the test and production phase.

Please visit hassouns.net for more information and portfolio.

2015 - 2018

Co-founder, CIO and lead dev at PlantHive, Brussels, Belgium.

<https://www.planthive.com>

Eden Synthetics is an experienced startup developing PlantHive, a smart green house project using the latest Internet-Of-Things and Biotechnology assets.

- PHP based web application development
- UNIX/Python based software development
- Online presence and e-commerce (Landing, Blog, Store)

2010 - 2016

Information System support at Med Concept, Brussels, Belgium.

Med Concept is an international Import & Export company specialized in medical equipment.

- IT infrastructure management
- Internal management web app development

2008 - 2009

6 months internship at Sopra Group, Lille, France.

Sopra Steria, a European leader in digital transformation, provides one of the most comprehensive portfolios of end-to-end service offerings on the market. I participated in web application development for employee's activity tracking.
